

Puzzle Bobble is a competitive puzzle game.

Bubblun and Bobblun
come in an
exciting puzzle game.
Let's enjoy the
game and see how fun!

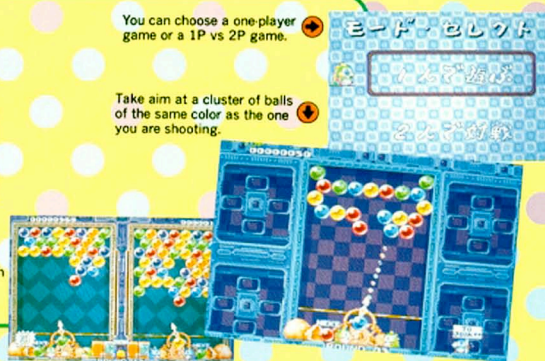

Rules are easy!

The most major feature of "Puzzle Bobble" is its easy operation. As soon as you take a seat in front of the game, you are addicted to "Puzzle Bobble". Enjoy its simple but challenging single joystick and single button configuration. Shoot a ball toward those of the same color. When three or more balls of the same color get clustered together, they pop away and you get points. When you successfully clear all the balls from the screen, you clear the round.

You can choose a one-player game or a 1P vs 2P game.

Take aim at a cluster of balls of the same color as the one you are shooting.

When the balls gather past the bottom limit line on the playfield, the game is over.

I'm gonna shoot yellow balls.

You are mean to me.

Let's enjoy the double fun of competitive 1P vs. 2P games.

The full enjoyment of the puzzle game catches you during 2-player competitive games. You can bother your rival by giving a mischievous interference, and it serves as your stress reliever. When you successfully pop away a large number or a cluster of balls at a time, you can send an interfering ball to your rival's playfield. The player who wins two out of three rounds, wins the match.

Special techniques

Clearing a cluster of balls

Shoot balls of the same color on one side. Then, shoot a ball of the color to clear the cluster of balls.

Bouncing a ball

It looks like you're losing, but you aren't. You can clear the balls of the same color behind the cluster by shooting a ball of the same color to bounce against the wall. This is effective in the competitive mode.

Specifications

Number of players: One or two players (includes 1P vs. 2P mode)
Control panel: A two-directional joystick and one button
A player can continue the game and join in the fun at any time during a game in progress.
