

Puzzle Bobble is the highly addictive puzzle game that has sold millions of copies world wide. The rules are simple; Bust all of the colored bubbles by lining up 3 colors in a row before time runs out. Sound easy? It is...at first. Slowly as you add more and more bubbles to the playing field you'll quickly see that you're running out of space for more bubbles. If one bubble crosses the line at the bottom, you lose. If that's not bad enough, the playing field slowly gets smaller as the roof pushes down over time. A fantastic 1 and 2 player game! See why this franchise is a favorite all over the globe?
